Full-Stack Developer

Full-stack developer with experience building and deploying scalable applications using React, Node.js, Flask, and PostgreSQL. Strong in REST API design, responsive UI development, and debugging across the stack. Driven to build clean, reliable software that solves real-world problems.

SKILLS

Frontend: React, JavaScript, TailwindCSS, HTML5, CSS3

Backend: Node.js, Express.js, Python, Flask, Prisma ORM, PostgreSQL, SQLAlchemy, RESTful APIs

WORK EXPERIENCE

Early-Stage Startup (NDA)
Software Engineer

08/2024 - Present
Remote

- Built full-stack features with React, Node.js, and Prisma/PostgreSQL
- Designed scalable APIs and integrated Google Maps and Spotify
- Collaborated with a small team to deliver product iterations

Pastel Recording Co.
Executive Audio Engineer

05/2019 - Present
Van Nuys, CA

- Managed studio systems, solved real-time issues, and led project workflows
- Developed strong debugging and collaboration skills through high-stakes client sessions

PROJECTS

NextSet
- Full-stack booking platform using PostgreSQL, Node.js, Express, Prisma
- Built secure REST APIs and integrated Google Maps and Spotify
- Implemented responsive UI using React and TailwindCSS
- Live Demo: nextset-demo.onrender.com

PicklePal
- Location-based matchmaking app built with Flask and PostgreSQL
- Auth flow, filter logic, and modular routing
- Styled with TailwindCSS and deployed on Render
- Live Demo: picklepal.onrender.com

EDUCATION

Software Engineering Certificate (700+ hours)
Springboard

04/2025

- Completed 700+ hours of hands-on full-stack training
- Built scalable apps from schema design to deployment using Flask, React, and PostgreSQL

Diploma
Rockwall-Heath High School

01/2013
